What's covered — You pay \$0

You won't pay a deductible, coinsurance, or copay for:

- Care from Penn Medicine cancer specialists for adult cancers and blood diseases
- Local primary care at the UHH Health Center, working closely with Penn's team
- Help from the UHH Health Promotion team with scheduling, benefits, and support
- Free transportation to and from your appointments

We fight hard for our healthcare. We need to utilize it on a preventive basis.

Don't wait until you're sick!

Get your cancer screenings, blood work, check-ups, vision exams and dental cleanings on a regular basis.

Why choose Penn?

- Ranked #10 in the U.S. for cancer care (U.S. News & World Report, July 2025)
- The latest treatments, including the only proton therapy (highly precise radiation) in the area
- A National Cancer Institute (NCI) Designated Center, unlike many local hospitals
- Higher survival rates and excellent patient experiences
- Access to clinical trials and leading-edge research

"At Penn Medicine, our pioneering research is transforming cancer treatment, and our compassionate clinical teams are providing personalized care to every patient who enters our doors. We are not only advancing cancer care and research—we are growing hope and saving lives."

– Robert Vonderheide, MD, Director, Penn Medicine's Abramson Cancer Center
